- **Michel Parent Workshop**

Newsletter, March 29, 2018

Notice of Meeting:

Thursday, March 29, 2018 at 7:30 PM.

We will be showing excerpts from EAA Chapter Videos. Highlights will include:

- Robert Unger, son of Breezy designer
- Cubs2Osh
- Basler Turbo Conversions
- EAA Hall of Fame Inductees Frank Christensen and Bud Anderson
- Spruce Creek Fly-In Community
- Eaa 65th Birthday
- Berkut 360
- Aircam Build Update
- First Cessna 172

Location:

Room 204, Penfield Building
John Abbott College
Ste. Anne de Bellevue

President:

Mike Lustig

Vice-President:

Michel Moreau

Treasurer:

Roberto Cea-Campo

Membership Coordinator:

John Dudkoff

Secretary & Webmaster:

David Cyr

Program Director:

Paul Czernenko

Newsletter Editor:

Richard Guevara

Catering:

Leo & Nora Nikkinen

Librarian:

Ed Hannaford

Technical Counselor:

Frank Hofmann

Flight Advisor:

Graham Batty

To contact any of our executive, send email to

contact@eaa266.org

and mention in the email the person to whom it is directed.

A word from our Chapter President...**Mike Lustig**

Dear Members,

Not too much to say this month, except that I just renewed my aircraft insurance this week and I'm looking eagerly to flying soon, hope you are too!

Again, a reminder that annual dues are due. EAA 266 is now able to receive payment for membership dues via E-transfer from your own bank via email to: eaachapter266@gmail.com. For calendar year 2018, use the password "Pazmany". A really convenient way to pay your annual EAA266 dues!

Best Regards to All,

Mike Lustig
President, EAA 266

A word from our Editor**Richard Guevara**

I am waiting for someone to come up with some new landing instrument that is based on a LIDAR solid state device. LIDAR is the sensing technology that is used by Google in their autonomous cars to determine the surroundings and, based on this artificial map, make decisions on where the car is to go and speed/direction and such. I suspect that it will show up as something like a RADAR altimeter, but on steroids. I have seen some inexpensive LIDAR devices are already on the shelves of electronic suppliers and it will be just a matter of time (if it hasn't happened already) before someone slaps something together.

Buckle up, its gonna be a wild ride !

-The Editor

Of General Interest**various contributors**

1. EAA 266 is now able to receive payment for membership dues via E-transfer from your own bank via email to: eaachapter266@gmail.com. For calendar year 2018, use the password "Pazmany". A really convenient way to pay your annual EAA266 dues!
2. If anyone is aware or comes across any event that may be of interest to our members, please email myself or someone in the list on the front of this newsletter and let us know so that we can broadcast it to all concerned.

EAA 266 folks attend Michel Parent Workshop held at ENA in February

Some EAA 266 folks and RAA friends attended Michel Parent's Advanced Assembly Workshop on February 24, 2018 at ENA in Saint Hubert.

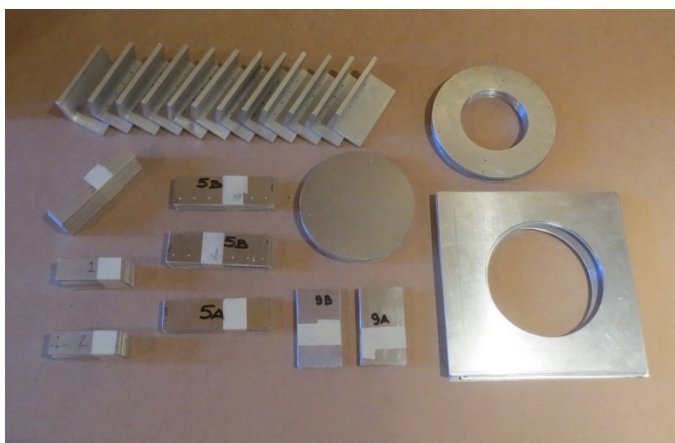

Michel Parent
Michel Parent photo

Michel is a methods and process guy who works for an aerospace company in the Montreal area and has run several workshops like this one. Participants were homebuilders from the local EAA and RAA communities and other interested folks.

Participants were required to bring their own hand tools and were provided with the work pieces and tooling needed for the exercises. Some people brought electric drills and some brought pneumatic drills and soon the shop was filled with the sounds of metal being worked.

Participants were provided aluminum work pieces and followed a number of exercises. Most exercises involved fixing workpieces with drilled holes purposely drilled a few thou offset from their true position. By the end of the workshop we all got the hang of fixing those offsets, and had completed an access panel as the final exercise. We also had a new appreciation of the importance of getting those hole locations right the first time (measure twice, drill once!)

Work pieces

Overall a very useful, affordable and fun workshop. A good time was had by all.
